Welcome to the 2019 Fair!

Fairs have been a part of Monroe County's history since its earliest days. The first Agricultural Society was organized in 1835; but it is not known if they held a fair. The first annual county fair of the Monroe County Agricultural Society was held in 1855. It was not the first fair; however, it apparently was the first one to be established on an annual basis. These fairs were discontinued during the Civil War, then renewed in 1868 and continued until the early 1880's. Early fairs were located just east of Bloomington on the land now know as Dunn Meadow on the Indiana University campus. From the early 1880's until 1946, the county fairs were held at various locations. In the early 1880's the fair was located in permanent brick buildings at the site of the present Duke Energy, West 2nd Street and Walker Street. For a number of years, around 1910, the fair was located at the corner of Vernal Pike and Curry Pike. People from town took the Monon train to the fair. During the late 1920's and early 1930's the fair was held around the court house square, with the 4-H projects being housed in the public library. The county fair was discontinued and became an exhibit of 4-H projects only when space on the square was no longer available. In the middle 1930's the 4-H projects were exhibited in the old high school gym, located at the corner of West 2nd Street and College Avenue. During the late 1930's and 1940's the 4-H projects were exhibited at the Ellettsville Fall Festival. The 4-H exhibits were moved back to the high school gym in the early 1940's.

In 1946, the Bloomington Chamber of Commerce began their ten-year sponsorship of the Monroe County 4-H Clubs by providing a site for the fair and funds for premiums. The fairs were held in the Indiana University field house, located on East 7th Street.

The Monroe County Fair Association was organized in 1955 and the fair has been held annually at the present site since that time.

Each year has added improvements through donations, a tax levy for a number of years, advertising in this book, rentals of buildings and grounds, and your attendance at various fair sponsored events. The permanent buildings and facilities, premiums, and operation expense of each year's fair are visible evidence of the income.

We are very proud of the continued growth of the fair. In 1986 an additional 51+ acres of land was purchased adjacent to the present fairgrounds to allow for expansion.

It takes a lot of interested people working many hours to put on the fair each year. The fair board recognizes and appreciates this, and wishes to express their sincere thanks to all who have supported and helped in any way.

The County Fair is a high point in the life of the community.
So come, one and all, to the County Fair!

- Monroe County Fair Board

INDIANA BOARD OF ANIMAL HEALTH

ANIMAL HEALTH REQUIREMENTS FOR EXHIBITION OF DOMESTIC ANIMALS IN INDIANA 2019

GENERAL REQUIREMENTS FOR ALL SPECIES: This document describes the Indiana State Board of Animal Health's (BOAH) requirements for all animal exhibitions in the state. HOWEVER, exhibition organizers may impose additional animal health requirements as a condition of entry. BOAH recommends contacting the exhibition organizer for specific information about requirements for each event. Please call the Indiana State Board of Animal Health at 877-747-3038 with questions concerning animal health requirements.

A. Limitations on Exhibition

This section describes limitations on exhibiting animals in Indiana. Other exhibition limitations may be described in the species-specific requirements that follow.

1. Failure to meet all animal health requirements will result in removal of animals from the exhibition premises.
2. The following animals are not eligible for exhibition in Indiana:
    a. Animals that originate from a herd that is under quarantine.
    b. An animal prohibited from exhibition under any law or order.
    c. Any animal classified as a brucellosis "suspect".
    d. Animals showing signs of any infectious or communicable disease or that are a health hazard to people or other animals.
    e. Any animal that does not meet state animal health requirements.
3. Any animal that develops or shows signs of any infectious or communicable disease during exhibition must be removed from the premises, including the surrounding exhibition grounds. An owner who is disputing the exclusion of his/her animal(s) from exhibition may not exhibit the animal in question pending any appeal.

The State Veterinarian is authorized to make the final determination as to an animal's eligibility for exhibition. The state veterinarian may order removal of any animal from the exhibition grounds.
Exhibition organizers may impose health requirements in addition to those prescribed by BOAH. Added requirements may not contradict requirements imposed by BOAH.
Exhibition organizers may have a licensed and accredited veterinarian review animals and animal health documentation during the exhibition.

B. Certificates of Veterinary Inspection

1. For animals that originate in Indiana, contact the exhibition organizer to determine the certificate of veterinary inspection (CVI) requirement, if any.
2. For animals that originate outside the state of Indiana, the exhibitor must have a properly completed official certificate of veterinary inspection (commonly known as "health papers") for the animal. This CVI requirement applies to all domestic animals (except for fish).
3. A certificate of veterinary inspection on any animal coming from outside Indiana for exhibition in Indiana is valid for 30 days from the date it is issued by a veterinarian.
4. Certificates of veterinary inspection accompanying animals for exhibition must be completed by a licensed and accredited veterinarian who has personally inspected the animals. CVIs must clearly include a description of each animal including the age, sex, and breed of the animal, and the official, individual identification.
5. Out-of-state swine and cattle attending an Indiana exhibition must have a pre-entry permit number noted on the certificate of veterinary inspection. Permits are available online at: http://www.in.gov/boah/2661.htm .

- Rule #15: No zip screws, self-drilling screws, will be allowed ANYWHERE on the car.
- Rule #5: Any cross member can be homemade or stock. No bigger than 2X2 and must stay in stock location, bolted in only.
- Rule #10: Rear ends in rear wheel drive cars may be swapped. Welding on rear end and not the car. If swapped from another different car, brackets can be welded on rear end, nothing on the car. No excessive reinforcing of the car will be tolerated. This is much like the engine swap rule. Rear ends must be a 5-lug passenger car type of rear end. That would exclude any rear end with 6 lugs or more.
- Rule #36: New truck, SUV and van class. No 4X4 vehicles allowed, unless the front drive shaft is removed to be equivalent to a 2-wheel drive vehicle. There may be two separate classes in which there will be much like a full size mid/mini equivalent event. The two classes will be strictly official`s judgement. All super stock, mid, mini rules apply to van and trucks.
- Rule #37: Any inspecting official reserves the right to drill an inspection hole into the cars frame. Officials will drill as many holes necessary for a VERY THOROUGH inspection at any location of the cars frame. We do have inspecting cameras, and we do intend to use them!

For food competitions: Filling, frosting, glazing, pie filling, and meringue, (whether uncooked or cooked) are not permitted to contain cream cheese, sour cream, heavy cream, or whipped cream as the nature of these products increases the moisture content and water activity of the food. Foods with a higher moisture content and water activity can be ideal growing conditions for food borne pathogens, even if the ingredient is part of a batter and baked. Additionally, raw milk, raw milk products or uncooked eggs/egg whites are not permitted. Eggs/egg whites that have been cooked to 160oF (i.e. pasteurized or included as part of a batter and baked) are acceptable.

No home-canned fruits, vegetables, or meats are permitted in products. Recipes must be provided that show which ingredients were used in each part of the product. Contestants should carefully wash their hands and make sure that their hands do not have any open cuts before preparing foods. Contestants should not be preparing food exhibits for competition within 48 hours of recovering from any illness. Whenever possible, baked products should be transported and stored in chilled coolers (41oF).

GUIDELINES:

1. Exhibit must be a baked or cooked product. The featured ingredient, blueberry, must be baked or cooked into the product. All items must be made from scratch. Store bought pie crusts, mixes (cake, muffin, biscuit, etc.) ARE NOT PERMITTED.
2. Commercial jams, jellies, and juice are permitted. Yogurt is not permitted in any entry.
3. Perishable or potentially unsafe food products ARE NOT PERMITTED. See PURDUE EXTENSION FOOD SAFETY POLICY (below).
4. One full-sized, uncut product required, EXCEPT items such as cookies, muffins, candy, doughnuts, etc. (3 items on a plate)
